

RAIDD Rabbit mAb

ABZ2290

Product Overview

Name	RAIDD Rabbit mAb
Accession(Primary)	P78560
Host Species	Rabbit
Clonality	Monoclonal
Isotype	IgG
Species Reactivity	Human
Calculated MW	Calculated MW: 23 kDa; Observed MW: 23 kDa
Recommended Dilution	WB-1:500-1:1000; IHC-1:50-1:100; ICC/IF-1:50-1:100

Target information (P78560)

Gene Name	CRADD
About Gene Symbol	CRADD (CASP2 And RIPK1 Domain Containing Adaptor With Death Domain) is a cysteine protease (caspase) involved in apoptosis. It is an important research target in metabolic disease, cancer metabolism, and drug discovery and is widely studied to elucidate c

Western blot analysis of RAIDD in HeLa, A549, MCF-7, 293T lysates using RAIDD antibody.

Immunocytochemistry analysis of RAIDD (green) in HeLa using RAIDD antibody, and DAPI (blue)
