

MLD Rabbit mAb

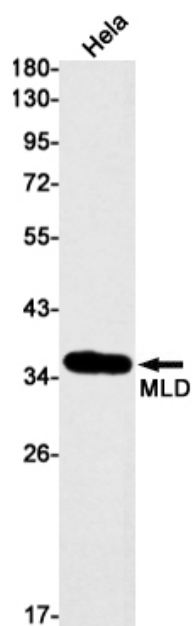

ABZ3054

Product Overview

Name	MLD Rabbit mAb
Accession(Primary)	O15121
Host Species	Rabbit
Clonality	Monoclonal
Isotype	IgG
Species Reactivity	Human
Calculated MW	Calculated MW: 38 kDa; Observed MW: 38 kDa
Recommended Dilution	WB-1:1000-1:5000

Target information (O15121)

Gene Name	DEGS1
About Gene Symbol	DEGS1 (Delta 4-Desaturase, Sphingolipid 1) is a metabolic enzyme involved in cell migration and invasion. It is an important research target in metabolic disease, cancer metabolism, and drug discovery and is widely studied to elucidate cellular mechanisms

Western blot analysis of MLD in HeLa lysates using MLD antibody.
