

## CSDE1/NRU Rabbit mAb

ABZ3280

### Product Overview

|                             |                                                                      |
|-----------------------------|----------------------------------------------------------------------|
| <b>Name</b>                 | CSDE1/NRU Rabbit mAb                                                 |
| <b>Accession(Primary)</b>   | O75534                                                               |
| <b>Host Species</b>         | Rabbit                                                               |
| <b>Clonality</b>            | Monoclonal                                                           |
| <b>Isotype</b>              | IgG                                                                  |
| <b>Species Reactivity</b>   | Human, Mouse, Rat                                                    |
| <b>Calculated MW</b>        | Calculated MW: 89 kDa; Observed MW: 89 kDa                           |
| <b>Recommended Dilution</b> | WB-1:500-1:1000; IHC-1:50-1:100;<br>ICC/IF-1:200-1:500; IP-1:20-1:50 |

### Target information (O75534)

|                          |                                                                                                                                                                                                                                                                                                                          |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>         | CSDE1                                                                                                                                                                                                                                                                                                                    |
| <b>About Gene Symbol</b> | CSDE1 (Cold Shock Domain Containing E1) is a protein kinase and signaling regulator involved in cell signaling and proliferation. It is an important research target in cancer, cell signaling, and therapeutic target research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets. |

Immunocytochemistry analysis of CSDE1 (green) in Hela using CSDE1 antibody, and DAPI (blue).

Western blot analysis of CSDE1/NRU in A549, HL-60, U2OS lysates using CSDE1/NRU antibody.

Immunohistochemistry analysis of paraffin-embedded Human lung cancer tissue using CSDE1/NRU antibody. High-pressure and temperature Sodium Citrate pH 6.0 was used for antigen retrieval.
