

## AP2 gamma/TFAP2C Rabbit mAb

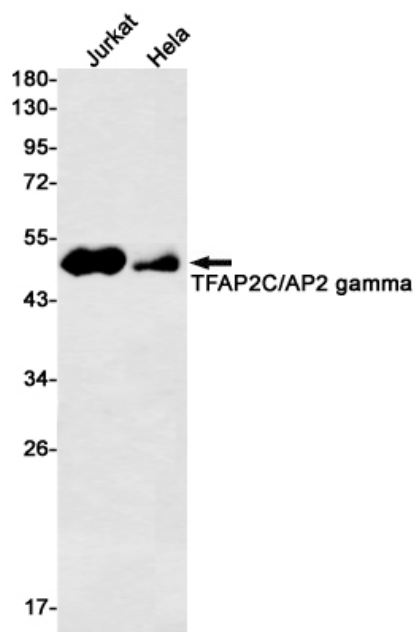

ABZ1954

### Product Overview

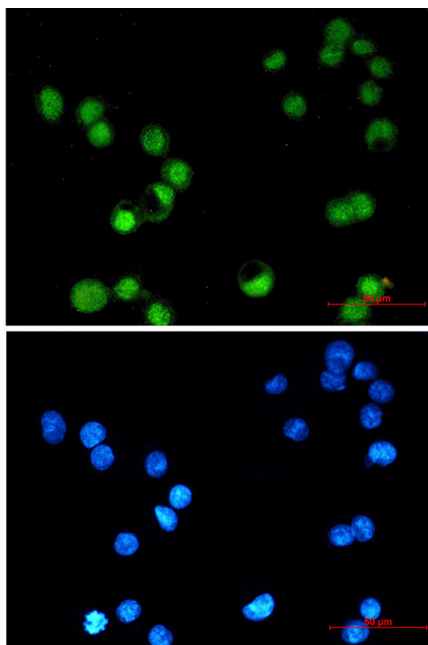

|                             |                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------|
| <b>Name</b>                 | AP2 gamma/TFAP2C Rabbit mAb                                                                              |
| <b>Accession(Primary)</b>   | Q92754                                                                                                   |
| <b>Host Species</b>         | Rabbit                                                                                                   |
| <b>Clonality</b>            | Monoclonal                                                                                               |
| <b>Isotype</b>              | IgG                                                                                                      |
| <b>Species Reactivity</b>   | Human                                                                                                    |
| <b>Calculated MW</b>        | Calculated MW: 49 kDa; Observed MW: 49 kDa                                                               |
| <b>Recommended Dilution</b> | WB-1:500-1:1000; HC-P:1:200-1:2000;<br>ICC/IF-1:200-1:500; FC-1:20-1:50; IP-1:20-1:50;<br>IHC-1:50-1:100 |

### Target information (Q92754)

|                          |                                                                                                                                                                                                                                                                                             |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>         | TFAP2C                                                                                                                                                                                                                                                                                      |
| <b>About Gene Symbol</b> | TFAP2C (Transcription Factor AP-2 Gamma) is a membrane receptor involved in receptor-mediated signaling. It is an important research target in cell signaling, drug discovery, and cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets. |

Western blot analysis of TFAP2C/AP2 gamma in Jurkat, HeLa lysates using Transcription Factor AP 2 gamma antibody.

Immunocytochemistry analysis of TFAP2C/AP2 gamma (green) in MCF-7 using TFAP2C/AP2 gamma antibody, and DAPI (blue)
