

## Acetyl-p53 (Lys382) Rabbit pAb

ABZ4323

### Product Overview

|                             |                                                                    |
|-----------------------------|--------------------------------------------------------------------|
| <b>Name</b>                 | Acetyl-p53 (Lys382) Rabbit pAb                                     |
| <b>Accession(Primary)</b>   | P04637                                                             |
| <b>Host Species</b>         | Rabbit                                                             |
| <b>Clonality</b>            | Polyclonal                                                         |
| <b>Isotype</b>              | IgG                                                                |
| <b>Species Reactivity</b>   | Human, Mouse, Rat                                                  |
| <b>Calculated MW</b>        | Calculated MW: 44 kDa; Observed MW: 53 kDa                         |
| <b>Recommended Dilution</b> | WB-1:500-1:2000; IHC:-1:100-1:300;<br>IF-1:50-1:200; ELISA-1:20000 |

### Target information (P04637)

|                          |                                                                                                                                                                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>         | TP53                                                                                                                                                                                                                                 |
| <b>About Gene Symbol</b> | TP53 (Tumor Protein P53) is a tumor suppressor protein involved in adaptive immunity. It is an important research target in cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets. |

Western blot analysis of Acetyl-p53 (Lys382) in  
HepG2 lysates using Acetyl-p53 (Lys382) antibody.
