

## Caspase 9 (1D1) Mouse mAb

ABZ3938

### Product Overview

|                             |                                               |
|-----------------------------|-----------------------------------------------|
| <b>Name</b>                 | Caspase 9 (1D1) Mouse mAb                     |
| <b>Accession(Primary)</b>   | P55211                                        |
| <b>Host Species</b>         | Mouse                                         |
| <b>Clonality</b>            | Monoclonal                                    |
| <b>Isotype</b>              | IgG1                                          |
| <b>Species Reactivity</b>   | Human                                         |
| <b>Calculated MW</b>        | Calculated MW: 46 kDa; Observed MW: 49,37 kDa |
| <b>Recommended Dilution</b> | WB-1:500-1:1000                               |

### Target information (P55211)

|                          |                                                                                                                                                                                                                                                                   |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>         | CASP9                                                                                                                                                                                                                                                             |
| <b>About Gene Symbol</b> | CASP9 (Caspase 9) is a cysteine protease (caspase) involved in apoptosis. It is an important research target in metabolic disease, cancer metabolism, and drug discovery and is widely studied to elucidate cellular mechanisms and identify therapeutic targets. |

Western blot analysis of Caspase9 in A549, MCF-7, Jurkat, K562 and HeLa lysates using Caspase9 antibody.
