

## TGFB1 Human, GST

*Transforming Growth Factor-Beta 1 Human Recombinant, GST Tag*

GRF0473

### Product Overview

|                           |                                                                 |
|---------------------------|-----------------------------------------------------------------|
| <b>Name</b>               | TGFB1 Human, GST                                                |
| <b>Accession(Primary)</b> | P01137                                                          |
| <b>Description</b>        | Transforming Growth Factor-Beta 1 Human<br>Recombinant, GST Tag |

### Target information (P01137)

|                          |                                                                                                                                                                                                                                                                                        |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>         |                                                                                                                                                                                                                                                                                        |
| <b>About Gene Symbol</b> | TGFB1 (Transforming Growth Factor Beta 1) is a formin actin nucleator involved in TGF- $\beta$ signaling. It is an important research target in immunology, inflammation, and cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets. |
