

ACTA2 Human

Actin, Alpha 2, Smooth Muscle, Aorta Human Recombinant

RCP0008

Product Overview

Name	ACTA2 Human
Accession(Primary)	P62736
Immunogen	Anti-human ACTB mAb, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with recombinant human ACTB amino acids 1-375 purified from E. coli.
Description	Actin, Alpha 2, Smooth Muscle, Aorta Human Recombinant

Target information (P62736)

Gene Name

About Gene Symbol

ACTA2 (Actin Alpha 2, Smooth Muscle) is a metabolic enzyme involved in cellular metabolism. It is an important research target in cardiovascular disease and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
