

## APP Human

*Amyloid beta (A4) Precursor Protein Human Recombinant*

RCP0084

### Product Overview

|                           |                                                          |
|---------------------------|----------------------------------------------------------|
| <b>Name</b>               | APP Human                                                |
| <b>Accession(Primary)</b> | P05067                                                   |
| <b>Description</b>        | Amyloid beta (A4) Precursor Protein Human<br>Recombinant |

### Target information (P05067)

#### Gene Name

#### About Gene Symbol

APP (AID(50)) is a cell surface marker involved in cell surface signaling. It is an important research target in immunology, flow cytometry, and cancer immunotherapy and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
