

## GNAQ Human

*Guanine Nucleotide Binding Protein Human Recombinant*

RCP0937

### Product Overview

|                           |                                                         |
|---------------------------|---------------------------------------------------------|
| <b>Name</b>               | GNAQ Human                                              |
| <b>Accession(Primary)</b> | P50148                                                  |
| <b>Description</b>        | Guanine Nucleotide Binding Protein Human<br>Recombinant |

### Target information (P50148)

#### Gene Name

#### About Gene Symbol

GNAQ (G Protein Subunit Alpha Q) is a protein kinase and signaling regulator involved in cell signaling and proliferation. It is an important research target in cancer, cell signaling, and therapeutic target research and is widely studied to elucidate cel
