

## GRB2 Human

*Growth Factor Receptor-Bound Protein 2 Human Recombinant*

RCP0964

### Product Overview

|                           |                                                             |
|---------------------------|-------------------------------------------------------------|
| <b>Name</b>               | GRB2 Human                                                  |
| <b>Accession(Primary)</b> | P62993                                                      |
| <b>Description</b>        | Growth Factor Receptor-Bound Protein 2 Human<br>Recombinant |

### Target information (P62993)

#### Gene Name

#### About Gene Symbol

GRB2 (Growth Factor Receptor Bound Protein 2) is a signaling adaptor protein involved in immune signaling. It is an important research target in immunology, inflammation, and cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
