MAOC Leishmania

Maoc Family Dehydratase-Like Protein Recombinant
RCP1313

Product Overview

Name	MAOC Leishmania
Description	
Maoc Family Dehydratase-Like Protein Recombinant	
Accession (Primary)	E9B914
Source	
Escherichia Coli.	
Physical Appearance	
Sterile Filtered clear solution.	
Formulation	
PBS.	
Stability	
Maoc Family Dehydratase-Like Protein Recombinant although although stable at 4°C for 1 week, should be stored below -18°C. Please prevent freeze thaw cycles.	
Purity	
Protein is >95% pure as determined by 10% PAGE (coomassie staining).	
Precautions	
MAOC Leishmania is for research use only and not for use in diagnostic or therapeutic procedures.	

Target Information: (E9B914)
