

MCAM Human

Melanoma Cell Adhesion Molecule Human Recombinant

RCP1337

Product Overview

Name	MCAM Human
Accession(Primary)	P43121
Description	Melanoma Cell Adhesion Molecule Human Recombinant

Target information (P43121)

Gene Name

About Gene Symbol

MCAM (Melanoma Cell Adhesion Molecule) is a cell surface marker involved in adaptive immunity and angiogenesis. It is an important research target in cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
