

PARK7 Human

Parkinson Disease Protein 7 Human Recombinant

RCP1587

Product Overview

Name	PARK7 Human
Accession(Primary)	Q99497
Description	Parkinson Disease Protein 7 Human Recombinant

Target information (Q99497)

Gene Name

About Gene Symbol

PARK7 (Parkinsonism Associated Deglycase) is a metabolic enzyme involved in cellular metabolism. It is an important research target in cancer research and neurodegenerative disease and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
