

PCNA Human, Sf9

Proliferating Cell Antigen Human Recombinant, Sf9

RCP1598

Product Overview

Name	PCNA Human, Sf9
Accession(Primary)	P12004
Description	Proliferating Cell Antigen Human Recombinant, Sf9

Target information (P12004)

Gene Name

About Gene Symbol

PCNA (Proliferating Cell Nuclear Antigen) is a protein kinase and signaling regulator involved in cell cycle regulation and adaptive immunity. It is an important research target in cancer, cell signaling, and therapeutic target research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
