

XRCC3 Human

X-Ray Repair Cross Complementing Protein 3 Human Recombinant

RCP2592

Product Overview

Name	XRCC3 Human
Accession(Primary)	O43542
Description	X-Ray Repair Cross Complementing Protein 3 Human Recombinant

Target information (O43542)

Gene Name

About Gene Symbol

XRCC3 (X-Ray Repair Cross Complementing 3) is an epigenetic and nuclear regulatory protein involved in DNA damage response and repair. It is an important research target in epigenetic regulation, chromatin biology, and cancer research and is widely studied to elucidate cellular mechanisms and identify therapeutic targets.
